

Chairman Powell,

Please take a close look at public opinion about our that means OUR PUBLIC AIRWAVES. Public opinion has been overwhelmingly against the possible deregulation of the public airwaves and I believe that it is the obligation of the FCC to act on our the publics behalf. Please with the utmost of urgency to not listen to the dollar signs of the media giants and pay attention to the public which is the owner of the airwaves. It was written by congress in the rules for the FCC some 100 or so times to always take into consideration the PUBLIC INTEREST when making decisions concerning OUR PUBLIC AIRWAVES!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Chairman Powell I do not think you will be acting on my behalf if you choose to deregulate the media and hand over OUR PUBLIC AIRWAVES to some money hungry media giant like Clear channel. Please do not change current regulations or relax any ownership.

Viacom et all should be made to scale down under current regulation and you guys should be enforcing said regulation instead of creating more media behemoths. Please do what your employer the public wants and that is do not deregulate the media!

Thank you for your time.

Betty Gleason
